

Accessory Protection Matrix

for Welch Allyn Partners in Care Service Agreement Customers

- If the device is under a Partners In Care service agreement, customers are entitled to **replace one accessory per year per device** that has been damaged or broken for any reason. If more than one category of accessories are selected then the customer is entitled to both/all, one per year, per device.
- If the accessory is under warranty and “defective” the replacement should not be charged against the Partners in Care agreement, but under the standard warranty. Partners in Care agreements cover the accessory if it’s damaged (for any reason).
- Accessories must be damaged or broken to be replaced.
- The customer is required to send the defective accessory back to Welch Allyn after receiving the new accessory.
- N/A = Not available, No = Not covered
