

Advancing Frontline Care™

April 21, 2009

Dear Welch Allyn AED20 and PIC South African Customers,

I am writing with important news concerning the Welch Allyn defibrillation business. In October 2008, we announced our Strategic Alliance and plan for the transfer of defibrillation operations to ZOLL Medical Corporation (Nasdaq: ZOLL).

On **Monday, April 27, 2009**, Welch Allyn will transfer the **AED20 and PIC supplies / accessories** product lines to ZOLL Medical. A list of available parts for your AED20 and PIC devices is attached for your convenience. This arrangement will provide you with access to critical supplies / accessories for the continued support of existing AED20 and PIC customers. To place an order, please contact STAT-Tiakeni Medical – contact information appears below:

STAT-Tiakeni Medical (Pty) Ltd
Unit 41 APD Industrial Park
Elsecar Street
KYA-SANDS, RANDBURG
+2711 708 6363

** Note: distributors without previous ZOLL purchases may require completion / approval of a New Distributor Account Application.*

This transfer does not affect the Welch Allyn AED10. The AED10 will remain our premier automated external defibrillator product available to frontline care customers on a global basis. Continue to contact Welch Allyn for AED10 product, supplies and accessories.

ZOLL Medical is one of the largest external defibrillator manufacturers in the world. Headquartered in Chelmsford, MA, they have been the industry's most reliable and stable provider of resuscitation products for 30 years, and they offer a full line of defibrillation and resuscitation products globally. We are confident this transfer to ZOLL Medical will serve your current and future defibrillation product needs and I thank you for your support.

Sincerely,

James P. Fee Jr.
Vice President & General Manager, Defibrillation
Welch Allyn Inc.
