Introducing the SureTemp® Plus 692 Electronic Thermometer

Speed and accuracy you require. Safety and security you demand.
The SureTemp® Plus 692—
with the speed and accuracy
you require, and the safety
and security you demand

When we set out to improve the Welch Allyn SureTemp, we knew we had our work cut out for us. After all, when you start with the thermometer that helped set the standard for speed and accuracy, the expectations run pretty high.

So how did we do? See for yourself by taking a look at the innovative SureTemp Plus 692—easier, safer and more accurate than the original, and still built to withstand constant use in demanding environments.

Easy: An easy-to-read LCD display with flashing icons that clearly communicate in any language, and an intuitive user interface and ergonomic shape make using the SureTemp Plus 692 a breeze.

Safe: Patient safety is improved thanks to an interchangeable probe well that reduces the risk of cross-contamination.

Fast and Accurate: In addition to improved accuracy, the SureTemp 692 is one of the fastest thermometers on the market, providing approximately 4- to 6-second oral, 10-second pediatric axillary, 15-second adult axillary, and 10-second rectal measurements.

Secure: To top it all off, our security features make sure the unit stays where it is supposed to be. A location ID on the display and other innovative features help prevent theft.

- Easy-to-use, intuitive operation
- Removable probe well reduces the risk of cross-contamination
- Improved accuracy for even more reliable readings
- Innovative security features that cut down on the chance of theft
The SureTemp® Plus 692

- Interchangeable probe with push-button probe cover ejection
- Removable probe well for easy cleaning
- Convenient storage for 25 probe covers
- C/F button for toggling between Fahrenheit and Celsius
- Storage space for 50 additional probe covers in the wall mount (Wall mount standard with the 692 model)
- Interchangeable rectal probe and well reduce risk of cross-contamination
- Large, easy-to-read, backlit LCD
- Prominent recall button for display of last temperature taken
- Mode button for selecting oral, pediatric axillary, or adult axillary
- Button for timing pulse and respiration
- Ergonomic design with rubberized grips
- Optional rolling stand for security and portability
- ID field for electronic labeling of thermometer
- Battery life indicator
- User-selectable icon and/or words for identification of thermometer mode
