Welch Allyn
KleenSpec® Disposable Vaginal Specula
and Cordless Illumination System

An advancement in women’s health technology that’s nothing short of brilliant
Welch Allyn KleenSpec® Disposable Vaginal Specula and Cordless Illumination System—

now in every size for every type of patient.

590 Series KleenSpec® Disposable Vaginal Specula

Enhance Patient Comfort

- The extra small speculum allows you to perform a comfortable exam with virginal/pediatric patients as well as post-menopausal and post-hysterectomy women—no more referrals or uncomfortable exams using metal specula or the wrong size
- Smooth, molded acrylic designed to prevent pinching or binding of tissue for greater patient comfort

Help Reduce Cross-Contamination

- Single-use speculum helps to reduce cross-contamination for improved patient safety while eliminating the time and expense of reprocessing metal specs

Improve Staff Productivity

- Features a wider handle design for improved maneuverability and better balance during exams
- A strong grip and a yoke that’s more flexible than low-cost substitutes

The 590 Series KleenSpec Vaginal Speculum is compatible with the Cordless Illumination System (#80010) as well as the Corded Illumination System (#78900).

Look for the distinctive Welch Allyn blue, green, white and yellow colored handles.
I had been using the corded version of the Welch Allyn Illumination System since 1980 and was thrilled when the cordless system was introduced. We have been using the Welch Allyn cordless Illumination system with disposable vaginal speculums for all of our patient exams since 2008 and couldn’t be happier. This light is brighter than any I have ever seen and shows true tissue color. If you forget to charge the light, it is easy to grab a replacement from another room or use a spare. The light is small, easy and quick to use which truly makes us more efficient. With Manhattan space at a premium, not having floor space taken up by a light source is a great benefit to us. I would recommend this system to any clinicians looking to improve the quality of their care.
