Diabetic retinopathy screening made SIMPLE and AFFORDABLE for primary care.

Documented compliance with annual retinal exams is often less than 50%.

With early detection, 95% of vision loss cases can be prevented.

Diabetic retinopathy is the leading cause of blindness among working-age adults.
Now you can easily and accurately screen for diabetic retinopathy using a **SIMPLE and EFFECTIVE** four-step process.

**Acquire**
Acquire non-mydriatic fundus images in minutes with the simple, automated Welch Allyn RetinaVue 100 Imager

**Transfer**
Encrypted images sent via secure HIPAA-compliant RetinaVue Network

**Analyze**
Images are evaluated by a board-certified retinal specialist

**Report**
Diagnostic report and referral/screening plan returned the same day—usually in 90 minutes

**BREATHROUGH CAMERA TECHNOLOGY IS LOW COST AND EASY TO USE**

- One-third the cost of full-size fundus cameras
- Touchless auto-focus and image capture support ease of use
- Automatic evaluation of image helps ensure quality
- Fast, non-mydriatic exam promotes patient comfort

**Welch Allyn RetinaVue™ 100 Imager**
RetinaVue Network is designed for healthcare providers who want to improve management of their patients with diabetes.

**Acquire**
Acquire non-mydriatic fundus images in minutes with the simple, automated Welch Allyn RetinaVue 100 Imager.

**Transfer**
Encrypted images sent via secure HIPAA-compliant RetinaVue Network.

**Analyze**
Images are evaluated by a board-certified retinal specialist.

**Report**
Diagnostic report and referral/screening plan returned the same day—usually in 90 minutes.

**PATIENT COMPLIANCE RATES CAN DOUBLE IN 12 MONTHS**

Single Primary Care Clinic Retinal Assessment Compliance Results using the RetinaVue Network
