January 24, 2014

Dear Valued Customer:

I am writing to inform you that Welch Allyn will discontinue manufacture and sales of the Acuity Central Monitoring System, Mobile Acuity LT, WACS (Welch Allyn Communications Server), Micropaq, Propaq CS, and the networked versions of the Propaq LT and Welch Allyn 1500, after December 31, 2014 for the US, Canada and non-CE Mark countries. In CE Mark countries, the discontinuation of sales and manufacture of the above products is the same except the Propaq CS and Micropaq will discontinue sales after June 13, 2014 and shipments after July 24, 2014.

The non-networked Propaq LT, non-networked 1500 and monitoring accessories will continue to be manufactured and available to customers. See the table below for the effective date in your country.

In addition, manufacture and sales of the Propaq CS monitor configured with sidestream CO2 option will be discontinued effective January 24, 2014 due to discontinued availability of component parts.

We would like to thank you for continuing to trust the care of your patients to Welch Allyn vital signs monitoring products. We appreciate your loyalty and plan to continually earn your trust through new innovations, including the Welch Allyn Connex Vital Signs Monitor and Electronic Documentation System and our upcoming Connex Clinical Surveillance System. The new Connex Clinical Surveillance System is designed to help solve common issues on medical surgical floors including falls, pressure ulcers, respiratory failure, EMR documentation and early warnings, to keep your patients safer and reduce risk to your facility.¹

We realize that our older monitoring solutions are important to you now and for years to come. To upgrade to recent hardware and software for optimal performance, increased functionality, and improved service agreement options, contact your Welch Allyn Account Manager or Sales Engineer. This last time buy opportunity, is an important option to extend the value of your monitoring system for years to come. Please make sure you place your orders for any additional hardware and software before the manufacturing ends.

Welch Allyn will provide service and support for these products, including sidestream CO2 version Propaq CS monitors, going end of life for up to five years or until parts and accessories are no longer available.

Sincerely,

A handwritten signature in black ink, appearing to read "Grant Gibson".

Grant Gibson
Director, Vital Signs Monitoring Marketing

¹ Not yet cleared or registered for sale in the U.S. or globally.

The Acuity, WACS, networked Propaq LT, networked Welch Allyn 1500 cease sales and manufacturing December 31, 2014.
